Dear Parents,

We want the students to enjoy their summer while keeping their math skills sharp. Students will be participating in the IXL on line program. IXL will be used in the classroom and for home assignment. Students can access this site at any time and practice past skills. They can even access skills they want to learn just for fun! This site offers unlimited practice with over 2000 questions for K – 12 skills. Immediate response, standards-based learning and a variety of difficulty in each skill are just a few things offered by this site. Game-like practice helps to make this site fun for all users while they are mastering their skills.

The cost of the online access for one year (May 2018 – May 2019) is \$20.00 per student. Future instructions will be given in May when your student receives his/her access code.

If you have several children attending St. Jude, please fill out a separate form and write an individual check for each child. Please return this form and a \$20.00 check made out to St. Jude School to your math teacher by **Wednesday, March 21, 2018**, for the cost of the access to the website. Access codes will be distributed on Monday, May 21, 2018.

## ORDER FORM FOR SUMMER MATH PROGRAM (CURRENT 3<sup>rd</sup> – 7<sup>th</sup>)

As part of our continued SACS Accreditation process, St. Jude employs a mandatory summer math program for all students currently in grades 3<sup>rd</sup> through 7<sup>th</sup>. We believe that this program will reinforce the math skills taught and give students preliminary skills needed to start the new school year, prepared and ready for math! With your signature, you are agreeing to partner in this program and will support your child during the summer with completion of assigned work on the IXL website.
