

Second Grade Summer Math 2024 - **Suggested Skills - NOT Mandatory**

Congratulations on finishing first grade! Even with all your child's growth this year, it is completely normal for students to experience a "summer slide." So to help your child enter the second grade and experience success from the beginning, we are offering the following as suggestions for his or her summer enrichment.

IXL - Have your child utilize this wonderful online math enrichment activity. Your first grade teacher should have sent you login credentials for IXL. We would suggest your child complete some (or all) of the following skills:

LEVEL C (First Grade)

1. Addition Skill Builders - **Q.1 -Q.12**
2. Subtraction Skill Builders - **T.1-T.12**
3. Place Value - **AA. 1, AA. 2, AA. 3, AA. 5**
4. Addition Word Problems - **R.1, R.2**
5. Subtraction Word Problems - **U.1, U.2**
6. Data and Graphs - **II. 1 - II. 4**
7. Time - **FF. 1, FF.2**
8. Money - **HH.1**

There are also many math games that your child is welcome to explore! These can be found underneath the skills list on the Level C Math page.

To get started using IXL on your home device, please follow these easy steps:

1. Go to <https://www.ixl.com/signin/brdiocese>
2. Enter username and password. (Provided by your 1st grade teacher)

In addition, we would like to encourage your child to practice their basic math facts. Addition and subtraction facts are the foundation upon which we build our math concepts in second grade and beyond. We will introduce the **Cougar Facts** program in second grade to help students build their mastery of addition and subtraction facts up to 20. These can be practiced with flashcards or digital activities. There are numerous activities and/or websites which can be accessed online.

Thank you for your support! We look forward to meeting your child in August!

One in Christ,

Shawn M. Bone, MAT

Claire Patterson, MAT

Maureen Oubre, M.Ed.

FAITH, ACADEMICS, EXCELLENCE
